

# OPEN POSITION

## Research Technician/Lab manager

We are seeking a highly motivated full time research technician to join the Kraft group at the Max F. Perutz Laboratories, University of Vienna, Campus Vienna Biocenter, in Vienna, Austria. The lab is using a combination of cell biology, biochemistry and genetics to study regulation and signaling in autophagy, primarily in budding yeast but also in mammalian cells.

Duties include organizational tasks (ordering, preparation and inventory of lab reagents, for example) as well as individual research work. Solid training and practical experience in molecular biology techniques are required, as well as excellent teamwork and organizational skills.

We are a young and enthusiastic team and offer a competitive salary (according to the [FWF salary scale](#) and the qualification of the applicant), the possibility of learning new techniques and of performing a small individual research project.

Applications consisting of a single PDF file (3 pages max) containing a:

1. statement of interest,
2. CV (describing skills and work experience), and
3. contact details of at least two references

should be sent electronically to [claudine.kraft@univie.ac.at](mailto:claudine.kraft@univie.ac.at) by April 30th. Please mention "technician" in the subject line.

To read more about the Kraft group go to: [www.mfpl.ac.at/kraft](http://www.mfpl.ac.at/kraft)
