

Horizon Genomics is a biotechnology company in Vienna, Austria, that is part of the Horizon Discovery Group. It employs a powerful functional genomics platform based on a unique set of haploid human cell lines. Using these cells we established the largest collection of validated human knock-out cell lines thereby empowering biomedical research. In addition, Horizon Genomics offers partnerships to perform unbiased genetic screens in human cells for drug target discovery and to elucidate drug mechanism of action. As part of its commitment to support experimental human genetics in the wider scientific community, Horizon Genomics is developing next generation genome editing tools.

Horizon Genomics is looking for a **Technical Assistant (m/f)** in the area of **Cell Culture** with experience in:

- Work under sterile conditions
- Culturing, freezing and thawing of mammalian cells
- Expansion and banking of large numbers of cell lines

Good knowledge on MS Word and Excel is a prerequisite for your daily work. As Horizon Genomics operates in an international environment, good English skills are required.

The job advertised here is a part-time job (**20 hours per week**; 4 hours per day) and is remunerated with a gross monthly salary (Bruttogehalt) of 1100 EUR.

To be formally eligible, you should have completed a Höhere Technische Lehranstalt (HTL) or a Bachelor's Degree. We are looking for someone who is detail-oriented and enjoys being part of the cell line manufacturing team.

If you would like to be part of a young and exciting company, please send your application to Mrs. Sarah Olaniyan ([office.genomics@horizondiscovery.com](mailto:office.genomics@horizondiscovery.com)) no later than October 20, 2015.

Horizon Genomics is part of the Horizon Discovery Group. Find more information about Horizon here: [www.horizondiscovery.com](http://www.horizondiscovery.com)
