

We are passionate about
our products and services.
How about you?

method"

ROMER Labs a global player in food safety, is a leading provider of diagnostic solutions for the agricultural, food and feed industry. Our broad range of innovative tests and services play a pivotal role in integrated food safety solutions. We develop, produce and market test kits and services for detecting food allergens, food pathogens, genetically modified ingredients, mycotoxins and residues using state of the art technology.

Due to our international growth strategy we are going to relocate to our new building in Tulln in Summer 2018 which will include our R&D Center, modern production facilities and more space for our future projects. We are looking for a smart and committed person to take over responsibility for some of our key projects as

Associate Production (m/f)

Tulln (Austria) / Job#12979

These are your tasks and responsibilities:

- Performance of production activities according to ERBER safety, quality and environmental standards and existing SOPs
- Technology transfer, validation, scale up and production of Romer Labs diagnostic test solutions (e.g. Lateral Flow Device test strips)
- Leading product and process improvement projects, as well as continuous improvement activities.
- Ensuring production according to market demand and production planning.
- Documentation of all tasks conducted according to good documentation practice.

In order to leave your foodprint, you need the following skills:

- Completed Master or PHD in biochemistry, immunology, food chemistry, biotechnology, or similar
- Extensive experience with analytical methods as ELISA, Lateral Flow Devices, etc., esp. development/improvement
- Problem solving approach and logical structural thinking
- Pioneer spirit and performance orientation

We are Pioneers, Partners and Performers. That means for you:

- 100% of our trust in advance and a unique company culture with broad diversity and flat hierarchies
- Exciting and challenging tasks in an international environment
- An enterprise in a group of companies with strong sales and growth during the past 30 years
- Top-notch teams and leading-edge technology

Based on how you have been categorized in the ERBER Group career model, your experience and your qualifications, we offer you this position along with an attractive total compensation package starting at € 35.000.- gross p.a. (fulltime incl. fixed and variable components).

Are you ready to leave your foodprint with us at Romer Labs?

We are looking forward to your online application: [Associate Production \(m/f\) - Job#12979](#)
