

MyeloPro Diagnostics and Research GmbH is an innovative research stage biopharmaceutical company, aiming to develop innovative, first-in-class therapeutics for the treatment of blood diseases.

We are seeking an enthusiastic and dynamic

Technical Assistant - Processing of human material (blood and bone marrow)

in the field of immunotherapy of hematological malignancies.

Requirements

- Completed BMA or MTA education, or MSc degree in life sciences
- Prior laboratory experience in relevant experimental work:
 - BSL 2 work experience
 - Work with human material (isolation of serum, plasma, PBMCs, etc.)
 - Standard cell culture procedures (thawing, freezing, sub-cultivation of adherent and suspension cells)
- Proactive and self-organized workstyle
- High accuracy and reliability
- Solid written and oral communication skills in English and German
- Additional qualifications:
 - Multicolor FACS, cell sorting, ELISA
 - Professional experience in pharmaceutical industry or clinical laboratory (dealing with patient samples)
 - Lab management experience

Responsibilities

- Processing of blood and bone marrow samples under BSL 2 conditions
- Involvement in organization and management of the laboratory to ensure smooth workflows in the lab (ordering, preparing reagents, ensuring functionality of equipment)
- Establishing, updating and improving SOPs (standard operating procedures)

For this position we offer a competitive salary of EUR 2.500 (x14 per year) with readiness to overpayment in case of outstanding qualifications, skills and experience.

If you are looking for new challenges in a meaningful and innovative setting, please send your application to office@myelopro.com.
