### Employee (M/F) Chemical Laboratory

As the Austrian Competence Center for Tribology ([www.ac2t.at](http://www.ac2t.at)), we have been developing solutions for friction, wear and lubrication for over 15 years. The work in our field of research encompasses a wide range of tasks and requires interdisciplinary approaches.

As part of the expansion of our lubricants division, we are looking for a committed and conscientious chemist for the position of laboratory technician starting with November 2020.

#### Your tasks include, among others:

- Performance of chemical and physical analyses according to specified methods on automated and semi-automated devices
- Collaboration in the optimization and development of analytical methods
- Maintaining laboratory operations, ensuring the availability of all required operating resources, ordering and managing chemicals, maintenance work
- Continuous further development in the sense of our ISO 9001 certification

#### Your qualifications:

- Completed apprenticeship, technical college or higher technical college with a focus on analytical or organic chemistry
- German spoken and written, knowledge of English is beneficial
- Careful and experienced handling of devices and their software

Scope of employment: full-time (40 h/week)

Start of activity: as soon as possible

Place of employment: Wiener Neustadt

Gross minimum wage based on full-time employment: € 1,900/month gross; any overpayment depends on relevant professional experience and/or qualification.

If we have aroused your interest in a long-term collaboration in our team and you meet the qualification requirements, then you are in the right place with us.
