

## Technician in Immunoassay Development

We have revolutionized allergy diagnostics and have been operating successfully in more than 70 countries for over 5 years with our diagnostic products and patented technologies. Our products help clarifying allergies in a single step – for humans and animals alike. Allergies are diagnosed in a highly specific manner so that patients receive help by their specialist in no time. We increase quality of life, enable personalized treatment, advance research and relieve our health system.

### We offer:

- A full-time position
- Annual pass for Vienna's public transport and Sodexo vouchers
- Collaboration with people who care about human and veterinary patients alike
- An environment where you feel empowered to ask questions, make requests and offer ideas
- An atmosphere created by the thoughts of sustainability, equity, diversity, inclusion, and mutual respect

### We need you for:

- Assistance in process optimization and development of innovative automation projects
- Planning and execution of validations of production processes
- Planning and implementation of qualifications of analytical equipment and production facilities
- Support and optimisation of production facilities
- Validation of client immunoassay needs as well as testing & analysis of research and clinical samples using commercial & home-brew kits
- Development & optimisation of existing and novel immunoassays using MADx' multiplex assay platforms & products

### Your profile:

- Completed medical, chemical-technical or life-science training (HTL, university of applied sciences, university)
- Practical experience in the qualification of equipment and/or validation of processes is an advantage
- Good PC skills, professional command of German and English (spoken and written)
- Ability to work in a team, high level of commitment and willingness to learn, own initiative, goal-oriented working method

For the cooperation in our team, we offer a payment in line with collective agreement (*Handwerk und Gewerbe*) based on a full-time position. Your actual salary depends on your previous experience and qualifications. Ready to become part of the MADx team? Then contact us with your CV and/or open questions at [jobs@macroarraydx.com](mailto:jobs@macroarraydx.com).
