

We are result-oriented  
and market-driven.  
How about you?

EFB (ERBER Future Business) is an innovative, international biotechnology company and innovation hub for the development of new products that are in the strategic focus of the ERBER Group. EFB realizes projects from the first laboratory test to the marketable product. EFB is part of ERBER Group.

Our Animal Vaccine Business is growing. Thus, we are expanding our Research Team in Austria. Would you like to become part of our team? Then apply for our open position as

## LABORATORY MANAGER R&D - VACCINES (M/F)

In this function, you will be responsible for the establishment of our vaccines R&D laboratories. You will report directly to our Head of Vaccines and be a key function to ensure our further growth and success in an exciting field. Within our EFB division, we act as a start-up with the well-established structures and service functions of a large group. This means for you: freedom in your daily routine, agility and pioneer dynamic.

### These are the tasks we trust in you:

- Building up a vaccine R&D laboratory incl. purchasing of new equipment, hiring of R&D staff and obtaining necessary approval for running a BSL 2 lab
- Responsibility for research and development of animal vaccines in close cooperation with external partners
- Establishment of new methods and technologies to continuously improve our research
- Evaluation of external technologies
- Leading a small but growing team of scientists / technicians
