

Where do program managers develop innovative solutions to increase food safety ?

You have experience with the development of enzymes. You are self-motivated, independent and structured. Then you are the right man or woman for our team. Due to a rapid growth, we are with immediate effect looking for a full-time colleague for the position as

Research Program Director–Enzymes (m/f)

Tulln (Austria) / Job #9522

These are your tasks and responsibilities:

- Strong focus on program- and project management and controlling (time-, milestone plans and budgets)
- First contact point for the internal project sponsor (Competence Center -Phase gate manager)
- Coordinates all internal interfaces (Research & Development Teams, Competence Center, Regulatory Affairs, P&P) along the product development chain
- Drives project progress and prioritizes
- Coordinates external R&D collaborations (negotiations of contracts, etc.)
- Ensures project documentation according to the company's project management and ISO

For result driven managers that want to make an effective mark, we are the best place to be. Are you ready?

- PhD degree or Master's degree in biology, biotechnology, animal nutrition or veterinary medicine or related fields at least 5 to 10 years industrial experience in industrial product development
- Leadership experience
- Experience with the development of enzyme based products in various industries
- Entrepreneurial personality with a positive, charismatic and winning manner
- Excellent relational, presentation and influencing skills both internally and towards the outside community

We are Pioneers, Partners and Performers. That means for you:

- Passion for business: we aim to launch innovative products in the market
- Top-notch teams and leading-edge technology
- Unique company culture, broad diversity and flat hierarchies
- Willing to contribute substantially to the future growth and success of the enzymatic product line

Due to legal requirements we have to state that the minimum salary for this position is EUR 33.628,- gross per year (full-time). Our actual remuneration packages are in line with attractive market salaries.

At **BIOMIN** we harness the power of science to support animal health and performance.
