

Where do Product Managers
have the more effective products
and services in their portfolio?

Romer Labs is a leading provider of diagnostic solutions for food and feed safety. With pioneering research & development as well as a global sales network, we have grown consistently for 30 years. Romer Labs is part of **ERBER Group**.

Are you ready to take overall responsibility as a product expert, a sparring partner for our sales and R&D teams, and an advocate for our customers? Then you are the right person to join our team.

Product Manager Mycotoxin Reference Testing (m/f)

Getzersdorf (Austria) / Job#12162

These are your tasks and responsibilities:

- Develop the strategy for the mycotoxins product group and ensure strategy implementation in the market
- Oversee product life cycles from strategic planning to tactical activities and global product launches
- Develop new products and redesign existing products in close cooperation with R&D based on market and customer needs
- Work with cross-functional and regional teams to develop product positioning and customer service opportunities
- Conduct market analyses and monitor competitors and trends to ensure a competitive market approach
- Coordinate beta-testing, approval and validation studies
- Ensure and conduct product trainings for sales teams, technical sales managers and distribution partners
- Prepare product presentations and demonstrations and present our products at conferences and trade shows

In order to leave your footprint, you need the following:

- Strong background in biotechnology, biology, biochemistry, food chemistry, or similar
- Working experience, preferably in product management, science or sales and marketing
- Hands-on experience in chromatography (HPLC, LC-MS, GC) ideally in the area of mycotoxins
- Ability to present ideas effectively and communicate well with peers and all levels of management
- High proficiency in English (speaking and writing)

Our culture: Pioneers, Partners & Performers. That means for you:

- 100% of immediate trust
- Exciting and challenging global tasks with up to 30% travel time
- Top-notch teams and leading-edge technology
- Unique company culture, broad diversity and flat hierarchies

Due to legal requirements we have to state that the minimum salary for this position is EUR 41.762 gross per year (full-time). Our actual remuneration packages are in line with attractive market salaries.

Do you have what it takes to develop the future stars in our portfolio?

We are looking forward to your online application: [PM Mycotoxin Reference Testing \(m/f\) Job#12162](#)
