

Technician Position (CTA)

We are looking for a skilled technician with strong experience working with transgenic mice. Expertise on immunohistochemistry, DNA cloning, western blot, real time PCR, genotyping, ELISA and cell culture is required. The position will be available in the research group of Emilio Casanova at the Ludwig Boltzmann Institute for Cancer Research, in Vienna. The successful candidate will work in the field of basic cancer research.

The successful candidate will be integrated into our multidisciplinary team consisting of biochemists, molecular and cell biologists. Good communication skills, independence, and a sense of responsibility are required. English is the working language.

The position will be available on March 2016. Applicants should submit: A cover letter, CV, names and contact details of 2 referees. Short listed candidates will be notified and invited for interview. Late applications may be considered until the position has been filled. Applications should be addressed to:
