

UNIVERSITY
OF VIENNA

The Institute of Biological Chemistry of the University of Vienna is looking for a talented postdoctoral fellow with strong experience in pharmacology, molecular biology, and chemical biology to join the Neuropeptide Research Group led by A/Prof. Markus Muttenthaler. The group is focused on the development and characterisation of molecular probes and therapeutic lead ligands to investigate and treat gastrointestinal disorders such as Irritable Bowel Syndrome and Inflammatory Bowel Disease. The successful applicant will be responsible for drug target discovery and validation, pharmacological characterisation of molecular probes and therapeutic leads, ADMET and other preclinical studies.

To see the full position listing including selection criteria, responsibilities and work place information, please go to <https://www.neuropeptidelab.com/opportunities> .

To apply for this position, please send your application package (cover letter, CV, contact details of two referees, statement addressing the selection criteria) to markus.muttenthaler@univie.ac.at with 'Application for University Assistant (Postdoc) – Pharmacologist' in the subject line.

The Institute of Biological Chemistry of the University of Vienna is looking for a talented technician with experience in chemical biology, pharmacology and molecular biology to join the Neuropeptide Research Group led by A/Prof. Markus Muttenthaler. The group is focused on the exploration of nature's biodiversity to develop molecular probes and discover novel therapeutic leads with applications in pain, cancer, autism, gastrointestinal disorders and neurodegenerative diseases. The successful applicant will be involved in the pharmacological characterisation of molecular probes and therapeutic leads, management of cell cultures, recombinant peptide/protein expression and chemical peptide synthesis.

To see the full position listing including selection criteria, responsibilities and work place information, please go to <https://www.neuropeptidelab.com/opportunities> .

To apply for this position, please send your application package (cover letter, CV, contact details of two referees, statement addressing the selection criteria) to markus.muttenthaler@univie.ac.at with 'Application for University Assistant (Postdoc) – Pharmacologist' in the subject line.

The Institute of Biological Chemistry of the University of Vienna is looking for a talented Scientific Writer with a good understanding in the areas of chemical biology, pharmacology, and the drug discovery and development process to join the Neuropeptide Research Group led by A/Prof. Markus Muttenthaler. The group is focused on the exploration of nature's biodiversity to develop molecular probes and discover novel therapeutic leads with applications in pain, cancer, autism, gastrointestinal disorders and neurodegenerative diseases. The successful applicant will be responsible for active industry engagement and preparation of research manuscripts and grant applications.

To see the full position listing including selection criteria, responsibilities and work place information, please go to <https://www.neuropeptidelab.com/opportunities> .

To apply for this position, please email your application package (cover letter, CV, contact details of two referees, and a statement addressing the selection criteria) directly to markus.muttenthaler@univie.ac.at with 'Application for Scientific Writer' in the subject line.
