

At Aelian Biotechnology, we combine two of the most powerful technologies in modern biology, CRISPR screening and single-cell sequencing, to identify critical genes and pathways driving disease states or provide unique insights into the mechanism of action of drugs. Our company culture is fast-paced and collaborative with a strong commitment to excellent science. We are looking for people who are passionate about our mission and who genuinely care about delivering superior scientific work.

Currently, we are looking for a **Lab Manager/ Part time (m/f/d)** with experience in:

- Purchasing consumables and key reagents
- Inventory management/ Maintaining common stocks and reagents (e.g. plasmid stock list)
- Shipping and logistics
- Basic lab duties (e.g. pouring agar plates or preparing LB medium)

Good knowledge on MS Word and Excel is a prerequisite for your daily work. As Aelian Biotechnology operates in an international environment, good English skills are required.

To be formally eligible, you should have completed a Höhere Technische Lehranstalt (HTL) or a Bachelor's Degree. We are looking for team players that have strong organizational skills.

The position is currently a part-time position (20h per week) and we expect the candidate to come into the lab every day (4h per day/ 5 days per week). The monthly salary amounts to 1.150 EUR gross income. A higher salary is possible depending on the experience and fit of the candidate.

If you would like to be part of a young and exciting company, please send your application to Dr. Tilmann Buerckstuemmer (jobs@aelianbio.com) no later than February 28, 2021.
