Scientific Employee (M/F) Chemistry

As the Austrian Competence Center for Tribology (www.ac2t.at), we have been developing solutions for friction, wear and lubrication for over 15 years. The work in our field of research encompasses a wide range of tasks and requires interdisciplinary approaches.

As part of the expansion of our lubricants division, we are looking for a committed and conscientious chemist for the position of scientific employee starting as soon as possible.

Your tasks include, among others:

- Coordination of single orders and work packages
- Documentation and management of project data
- Communication with project leaders and customers
- Continuous further development in the sense of our ISO 9001 certification

Your qualification:

- Ongoing or completed academic training (BSc, MSc) with a focus on analytical or organic chemistry
- German and English spoken and written, knowledge of other languages beneficial
- Careful and experienced handling of analytical data
- Good customer relations

Scope of employment: part time and full-time possible (20-40 h/week)

Start of activity: as soon as possible

Place of employment: Wiener Neustadt

Gross minimum wage based on full-time employment: € 2,200/month gross; any overpayment depends on relevant professional experience and/or qualification.

If we have aroused your interest in a long-term collaboration in our team and you meet the qualification requirements, then you are in the right place with us.

Please send your complete application documents in electronic form to: jobs@ac2t.at
