

Laboratory technician/scientific assistant in the field of Cancer Research

Workplace

Center for Cancer Research, Medical University of Vienna

Website

<https://krebsforschung.meduniwien.ac.at/>

We are looking for a highly motivated **laboratory technician/scientific assistant** (CTA-chemical technical assistant or bachelor/master level) with experience in in vitro and in vivo analyses in the field of experimental anticancer drug development to join the Walter Berger group. The new team member will significantly contribute to translation cancer research projects aiming to elaborate precision medicine approaches in oncology. The **full time position (40 hours/week)** offers a great opportunity for career advancement by developing skills and knowledge in the field of experimental cancer research.

Your responsibilities

Cell and molecular biology techniques:

- Mammalian cell and tumoroid culture
- Work with in vivo cancer models
- Isolation and analysis of DNA, RNA, and proteins
- Seahorse metabolic analyses
- Microscopy and live cell imaging
- Histology with diverse staining techniques

Labor maintenance and administration

- Coordination of in vitro and in vivo experiments
- Coordination of ordering and lab stocks

Your Profile

- experience with in vivo experiments and histological methods is of high preference
- experience on cell and molecular biology techniques
- excellent communication skills in German and English
- excellent organizational and interpersonal skills
- ability to work in an international environment

Our Offer

- An outstanding working atmosphere in a strong team with excellent research and development opportunities
- The possibility of expanding your knowledge with the most advanced techniques
- Flexible working hours
- Great location in the center of Vienna
- A fair and attractive salary package

Who we are

Our laboratory is at the Center for Cancer Research based at the Medical University of Vienna, one of the largest medical universities in Europe. MedUni Vienna is one of the most important top-level research institutions in Europe and provides Europe's largest hospital, the AKH in Vienna, with all of its medical staff. With its long history and tradition, which covers 640 years, MedUni has developed into a highly modern research institution that employs a staff of 5,000, of which 1,800 are researchers and 1,600 are medical doctors. Each year 100,000 patients are treated as inpatients.

Vienna is a beautiful, affordable and culturally rich central European capital city that has been consistently voted by the Mercer survey as number 1 in the world for quality of living.

Your application

Send your CV and your certificates to **reka.novak-kertesz(at)meduniwien.ac.at** . The position will be available with a start on 01.10.2023.
