

MyeloPro Diagnostics and Research GmbH

Muthgasse 11, St. 2

Vienna 1190, Austria

UID: ATU70251238

Email: office@myelopro.com

MyeloPro Diagnostics and Research GmbH is an innovative research stage biopharmaceutical company, aiming to develop innovative, first-in-class therapeutics for the treatment of blood diseases.

In order to complement our team, we are seeking an enthusiastic and dynamic

Scientist – Antibody and Protein Engineering (PhD)

in the field of immunotherapy for the treatment of hematological malignancies.

Requirements

- PhD degree in life sciences or related fields with background in antibody/protein engineering and/or cancer research
- Skilled in standard biochemical techniques including antibody/protein expression and purification using mammalian and bacterial cell cultures, techniques to evaluate protein/antibody interaction, as well as enzymatic and cellular assays.
- Experience with antibody-based therapies are highly preferred.
- Proactive and self-organized workstyle
- Able to manage the projects independently, proven leadership skills
- Excellent interpersonal skills and passion for working in an international environment
- Solid written and oral communication skills in English
- Professional experience in pharmaceutical industry is welcome but not an absolute requirement

Responsibilities

- Design, optimize and produce new antibodies and related formats.
- Develop and execute multiple biochemical and cellular assays for the characterization of development candidates.
- Work with other functions to lead the characterization of drug candidates.
- Utilize information obtained from internal and external sources to develop hypotheses as well as design and execute experiments for critical project decisions.
- Elaborate and author protocols, tools and reagents needed to execute experiments.
- Prepare presentations for internal and external stakeholders.
- Prepare technical documents, laboratory protocols, and other regulatory documents.
- Mentor other group members.
- Contribute to selection of vendors and contractual partners

For this position we offer a competitive salary of EUR 3.200 (x14 per year) with readiness to overpayment in case of outstanding qualifications, skills and experience.

If you are looking for new challenges in a meaningful and innovative setting, please send your application to office@myelopro.com.
