

ENABLE NEW DISCOVERIES.

The Vienna BioCenter Core Facilities GmbH (VBCF, <http://www.vbcf.ac.at>) acts as a nexus for science and technology and enables scientific discoveries by its collaborative spirit and access to state-of-the-art technologies.

We are looking for an enthusiastic and scientifically curious

Core technician (f/m/d, full-time)

to join our **Metabolomics facility** which provides services for the analysis of small molecules to the life science research community in Vienna and beyond. A detailed overview of our offered services can be found on our [website](#).

Key responsibilities

- Operate and maintain LC-MS/MS systems.
- Perform metabolomics experiments with a strong focus on non-targeted metabolomics.
- Analyze respective data sets.
- Communicate results and provide support to our customers and collaborators.
- Develop and refine our spectral library and data processing routines and measures.
- Perform and implement quality control (QC), including the development standard operating procedures and documentation.

Your profile

- Training in chemistry or a similar field.
- Practical experience operating LC-MS instrumentation.
- Thorough understanding of the theoretical principles of chromatography and mass spectrometry
- Methodical, detailed oriented and independent working style inherent to analytical chemistry.
- Superior organizational skills and stress-resistance.
- Excellent communications skills in English and German and a client-centric mindset.

Your benefits

This position is unlimited. Our attractive compensation package includes subsidized access to our company crèche and kindergarten, the yearly ticket of the “Wiener Linien”, the VBC social & sports program, and flexible working hours. The minimum salary for this position will be 2300€ gross per month full time (40h/week) paid 14x per year. The actual remuneration will depend on your scientific expertise and professional experience.

Who we are

The VBCF is an inter-institutional research infrastructure that was founded to enable researchers at the [Vienna BioCenter Campus](#) to achieve their scientific goals and become leaders in their research areas. To this end, we provide access to state-of-the-art instruments and the combined scientific expertise and professional experience of more than 100 scientists. We are funded by the Federal Government and the City of Vienna and take pride in recovering more than 50% of our running costs via user fees.

How to apply

Please send your CV and a letter of interest including the job reference “Core technician | Met” to apply@vbcf.ac.at. The first round of interviews will be held shortly after October 29th, 2021. The position is open until filled. For further information about the position please contact Thomas.Koecher@vbcf.ac.at.

As an employer we promote a culture of continuous learning and are committed to gender equality. Therefore we strongly encourage female applicants. VBCF processes your personal data in accordance with the statutory data protection regulations.
