

Materials Technician 3D Printing (m/f/d) in Vienna 1060

Location: 1060 Vienna | full-time/part-time position (20 - 38,5 hours per week)

We, LITHOZ GmbH, located in Vienna, are specialized in the development and production of materials and generative manufacturing systems for 3D printing of advanced ceramics and bioresorbable ceramics. With its future-oriented products, the company operates in a rapidly growing, international business environment.

With us, people come first. This is reflected in our corporate culture as well as in our LITHOZ technologies. Every employee contributes to ensuring that all products meet the highest standards, enabling users to manufacture innovative and high-quality products.

With immediate effect we are looking for a Materials Technician in the field of 3D printing for our location 1060 Vienna.

Your responsibilities at LITHOZ:

- We train you to become an expert in our 3D printing technology - lithography-based additive manufacturing.
- As part of your job, you will learn to develop materials and process techniques for lithography-based additive manufacturing and to produce components from advanced ceramics using LITHOZ's own 3D printers.
- You will support our team in in-house development.
- An essential part of your job is the technical, content-related and deadline-related collaboration in various material and process development projects. You will support the materials and process development team in their daily tasks in the laboratory or in our 3D printing technical center and in development projects.

Professional requirements:

- You have a great interest and understanding of chemical and process engineering. Ideally, you have completed a technical or chemical education (LAP, HTL, FH).
- You are committed to gaining initial experience in the laboratory or R&D area or you already have this experience.
- You are well trained in MS-Office (Excel, Word, Powerpoint).
- Ideally, you have already acquired basic knowledge in CAD.
- Your German and English language skills are good, both written and spoken.

What makes you unique?

- You have a high sense of responsibility and work in a structured as well as efficient manner.
- You are a team player.
- You live by the hands-on mentality and master stressful situations with confidence.
- You are quick on the uptake and always keep an eye on the essentials.
- You solve problems with your analytical skills and creative approaches.

What we offer:

- A long-term and interesting job in an international company that develops and distributes high-end technology.
- Room for your own ideas.
- A committed team that attaches great importance to collegiality and offers a family atmosphere.
- A value-oriented corporate culture and flat organizational structures.
- The opportunity for internal and external training.
- Company events
- Received the EUCUSA Award in 2023 for “excellent leadership”

The minimum gross monthly salary is EUR 2.500,- for a 38.5-hour workweek. Depending on experience and qualifications, a commensurate higher salary is, of course, possible.

Have we sparked your interest?

We look forward to receiving your detailed application, including your salary expectations and your earliest possible start date, at jobs@lithoz.com. Ms. Jovanovic will be happy to answer any questions you may have by phone (+43 660 2339684).

We are looking forward to meeting you!
